

(1) We had heard of the organization. The workers had worked on the HIV AIDS project. The talk of picnic at this spot brought a lot of joy. But some ladies had to go elsewhere for a training on 2nd January itself. But the work was delegated to others and the picnic was organized. Sabera ben along with others and Popatbhai gave us a very warm and loving welcome. We were impressed and happy with life amidst nature here. We reminisced our childhood. All of us did the *Pradakshina* of the *Ishtavriksha*. Then there were snacks and tea and meals, again served with a lot of love. A big and heartfelt thank you to the members of the *Vanalakshmi Mahila Sewa Mandal* from all the 48 members of the *Gujarat Bhavsar Mahila Mandal*. We wish to visit again. Thanks

(8) Our friend Mr Hemant Kadiya told us of this organization that symbolises women empowerment. We visited the place and experienced it. It was a very happy and fulfilling experience. Coming here was a heavenly experience far from the hectic lives of the city. We would recommend that you plan and market this place so that it reaches more and more residents of the city and they come to know about it. Our best wishes. - **Hemu, Parimal Garden Group, Ahmedabad**

(10) Our today's visit to the *Kudrati Pravasan Kendra* has been a very happy and satisfying visit and one that provides a lot of strength to the mind. This activity by you lady members will keep alive the tradition of the village. It also tells the illiterate village women about the strength of unity. This definitely deserves accolades. Infact the big time management gurus can also learn a lot from your activities.

Moreover, an easy life, natural surroundings and so close to the city. This beautiful place is heaven for people like us from the city. You all deserve a big thank you. -**Parth Thakka (Members from one of the groups of the Parimal Garden Mitra Mandal.**
